SUBJECT: NRC INSPECTION REPORT 50-266/2000002(DRS); 50-301/2000002(DRS)

Dear Mr. Reddemann:

On January 14, 2000, the NRC completed a routine inspection of the physical protection program at your Point Beach Nuclear Plant. The enclosed report presents the results of that inspection.

Areas examined within your security program are identified in the report. Within those areas, the inspection consisted of a selective examination of procedures and representative records, observation of performance, and interviews with staff. The objective of the inspection effort was to determine whether activities authorized by the license were conducted safely and in accordance with NRC requirements.

Based on the results of this inspection, no violations of NRC requirements were identified and the overall effectiveness of your security program continued to be sound.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and the enclosure will be placed in the NRC Public Document Room.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

James R. Creed
Safeguards Program Manager
