January 31, 2000

United States Nuclear Regulatory Commission Document Control Desk Washington, DC 20555

> Operating License DPR-58 Docket No. 50-315

**Document Control Manager:** 

In accordance with the criteria established by 10 CFR 50.73 entitled <u>Licensee Event</u> <u>Report System</u>, the following report is being submitted:

LER 315/99-031-00, "Valves Required to Operate Post-Accident Could Fail to Open Due to Pressure Locking/Thermal Binding."

No commitments were identified in this submittal.

If you have any questions, please contact Mr. Robert C. Godley, Director, Regulatory Affairs, at 616/465-5901, extension 2698.

Sincerely,

on MUR.

M.W. Rencheck Vice President – Nuclear Engineering
