NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

January 24, 2000

Mr. Anatoli Welihozkiy, Acting Director  
Nuclear Transfer and Supplier Policy Division  
Office of Arms Control and Nonproliferation  
U.S. Department of Energy  
Washington, DC 20585

Dear Mr. Welihozkiy:

Enclosed is an application for a license (XSNM03136), recently received by the Nuclear Regulatory Commission, for the export of ten fission chambers, containing high enriched uranium for use in Younggwang Units 1 and 2 in South Korea. Assurances are required that the material will be subject to all the terms and conditions of an agreement for cooperation. Your assistance in obtaining the necessary assurances will be appreciated.

Due to the relatively quick delivery time required by the end user, we are requesting expedited review and processing in order to meet a scheduled March 20, 2000 shipping date.

Sincerely,

A handwritten signature in cursive script that reads "Ronald D. Hauber".

Ronald D. Hauber, Deputy Director  
Office of International Programs
