Mr. Marvin Mendonca  
U.S. Nuclear Regulatory Commission  
Mail Stop 1-12 D-1  
Washington D.C. 20555

Dear Mr. Mendonca,

I would like to request an amendment to the Purdue University Technical Specifications License No. R-87, Facility Docket No. 50-182 (Amendment No. 10).

The proposed change is on Page 28 Section 6.2.2.c. This change ensures that our Technical Specifications are not tied to a specific job title. As this job title is beyond the administrative control of the Department of Nuclear Engineering we would like 6.2.2.c to read such that the job title is not specified.

Current Section 6.2.2.c

“6.2.2.c. The Purdue University Director of Safety and Security.”

Proposed new Section 6.2.2.c

“6.2.2.c. A senior member of the Purdue safety and security organization.”

This amendment has been approved by our Committee of Reactor Operations (CORO) at the Dec. 15, 1999 meeting.

Thank you.

A handwritten signature in cursive script, appearing to read "Edward C. Merritt".

Reactor Supervisor
