**SUBJECT: QUAD CITIES INSPECTION REPORT 50-254/99025(DRP);  
50-265/99025(DRP)**

**Dear Mr. Kingsley:**

**On January 19, 2000, the NRC completed an inspection at your Quad Cities Units 1 and 2 reactor facilities. The results were discussed with Mr. Dimmette and other members of your staff. The enclosed report presents the results of that inspection.**

**The inspection was an examination of activities conducted under your license as they relate to safety and to compliance with the Commission's rules and regulations and with the conditions of your license. Within these areas the inspection consisted of a selective examination of procedures and representative records, observations of activities, and interviews with personnel. Specifically, this inspection focused on resident inspection activities.**

**Based on the results of this inspection, the NRC has identified three non-cited violations. These issues have been entered into your corrective action program. The non-cited violations and other findings that were determined to have low risk significance are listed in the summary of findings and are discussed in the report.**

**If you contest a violation or the severity level of the non-cited violations, you should provide a response within 30 days of the date of this inspection report, with the basis for your denial, to the Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington DC 20555-001, with a copy to the Regional Administrator, Region III, Resident Inspector and the Director, Office of Enforcement, United States Nuclear Regulatory Commission, Washington, DC 20555-001.**
