Dear Chairman,

I am concerned about the legalization of radioactive waste cycling.

I urge you to prohibit the release of radioactive wastes and materials from entering the consumer marketplace, landfills, incinerators, etc. Radioactive waste should be restricted to licensed radioactive facilities only

DOCKET NUMBER
PROPOSED RULE **PR** 20
(64FR35090)

I also urge you to direct the EPA, NRC and DOE to recapture radioactive wastes already released and to work for an international prohibition on radioactive releases.

Thank you for your time and consideration.

Respectfully,
David A. Luxem
