SUBJECT: January 2000 Monthly Operating Report (MOR) and Corrections to October through December 1999 MORs

The January 2000 MOR for Fort Calhoun Station (FCS) Unit No. 1 is attached as required by FCS Technical Specification 5.9.1.

In addition, the "Reactor Critical" hours on the Operating Data Reports for the months of October and November 1999 were determined to be inaccurate. These inaccuracies also propagated into the year-to-date and plant cumulative totals of the previously submitted Operating Data Reports for October, November, and December 1999 (References 2-4). The actual "Reactor Critical" hours are reflected on the attached corrected Operating Data Reports for the affected months.

If you have any questions, please contact me.

Sincerely,

S. K. Gambhir
Division Manager
Nuclear Operations Division
