Selected Licensee Commitments Manual (SLC)

Gentlemen:

Pursuant to 10CFR 50.4 and 50.71, please find attached 7 copies of the latest revisions to the Oconee Selected Licensee Commitments Manual (SLC). The SLC Manual is Chapter 16.0 of the Oconee Updated Final Safety Analysis Report (UFSAR). This manual is intended to contain commitments and other station issues that warrant higher control, but are not appropriate for inclusion into the Technical Specifications (TS). Instead of being updated with the annual UFSAR Update, the SLC Manual will be updated as necessary throughout the year.

Very truly yours,

W. R. McCollum, Jr.  
Vice President  
Oconee Nuclear Station

Revision

On January 26, 2000, Station Management approved changes to SLC 16.8.3 to be implemented on 1/31/00. The change modifies the subject SLC to provide a Note prior to Required Action B.1 which states that the actions of B.1 are not required when the associated buses (PA or PB) are cross-tied. This change corrects an error which was made during the conversion of this SLC into ITS format, and restores agreement between the SLC and the associated Bases.
