OFFICE OF
PUBLIC AFFAIRS
ADJUTANT GENERAL

President William Clinton
The White House
Washington, DC 20500

Dear President Clinton:

I recently read that the US Nuclear Regulatory Commission is legalizing the release of radioactive materials into raw materials and building supplies, that the DOE is currently sending radioactively contaminated metals from nuclear weapons sites to regular scrap yards, and that states are permitting private companies to release into commerce radioactive metals, lead and asphalt. This is terrifying.

I urge you to issue an Executive Order prohibiting radioactive wastes and materials from entering the consumer marketplace, landfills, and incinerators. Please also order the NRC and DOE to recapture radioactive wastes already released and to work towards an international prohibition on radioactive releases.

Thank you for your attention to this urgent matter.

Sincerely,

Lise Brody
