Subject: Say No to Radioactive "Recycling" to Consumer Products, Etc.

C  
BL  
ADJ

---

Dear President Clinton:

It has come to my attention that the US Nuclear Regulatory Commission is in the process of legalizing the "release" or "clearance" of radioactive materials from licensed, regulated control into raw materials, building supplies, and items with which we come into daily contact. The very idea is quite preposterous.

Please be responsible to the people of this country and world, and not the makers of radioactive waste. Call for an issuance of an Executive Order to prohibit radioactive wastes and materials from entering the consumer marketplace, landfills, incinerators, anywhere but licensed radioactive facilities. Direct the EPA, NRC, and DOE to recapture radioactive wastes already released, and work for an international prohibition on radioactive "releases."

Thank you for your prompt attention to this issue.

Sincerely,

Melody Allison
