February 26, 2000

ADJ

Dear Chairman Meserve,

I am writing to demand that no contaminated materials reach the consumer marketplace. It has come to my attention that the DOE has made allowances for the sale and recycling of some 120,000 tons of contaminated materials from Oak Ridge. This is a horrifying prospect-do we all need geiger counters to protect ourselves!? Please support a "zero tolerance" policy against the release of this kind of contaminated material.

Thank you for your thoughtful attention to this matter.

Sincerely,

Anna Cicirelli
