SUBJECT: TRANSMITTAL OF REVISED REPORT ON EXTERNAL PEER REVIEW OF
THE TOTAL-SYSTEM PERFORMANCE ASSESSMENT (TPA) VERSION 3.2
CODE

Dear Dr. Wittmeyer:

The U.S. Nuclear Regulatory Commission staff has completed an evaluation of Revision 1 to the external peer review report and found the report acceptable. We have developed an action plan on how to consider the external reviewer comments contained in the report. The action plan and revision 1 of the external review report will be made available to the public concurrently.

The comments of the reviewers are being categorized and responses to the comments will be tracked through updates to the action plan. We will respond to the recommendations as we complete current and planned activities and will maintain a summary of our responses in the action plan. The recommendations of the external reviewers should be considered as we complete current and future activities.

If you have any questions, please contact me at (301) 415-6628 or by Internet mail at jrf2@nrc.gov.

Sincerely,

/RA/
