MEMORANDUM TO: File

FROM: Duane Schmidt, Health Physicist
Decommissioning Branch
Division of Waste Management, NMSS

SUBJECT: SEWAGE SLUDGE SUBCOMMITTEE OF THE INTERAGENCY
STEERING COMMITTEE ON RADIATION STANDARDS: HANDOUTS
FROM DECEMBER 1999 PUBLIC MEETING AND SUMMARIES OF
JANUARY AND FEBRUARY 2000 SUBCOMMITTEE MEETINGS

Attached are recently developed documents related to the joint Nuclear Regulatory Commission (NRC) and Environmental Protection Agency (EPA) survey of radioactivity in sewage sludge and ash. The Sewage Sludge Subcommittee of the Interagency Steering Committee on Radiation Standards (ISCORS) is assisting in the development of this joint NRC and EPA survey and the related guidance document for sewage treatment plant operators.

The first six documents are the agenda and presentation handouts used by the Subcommittee in its public meeting on December 13, 1999. The presentations covered (1) background on the Subcommittee and its work, (2) the joint survey of radioactivity in sewage sludge and ash, (3) the joint guidance document, (4) the quality assurance project plan for the survey, and (5) dose modeling activities that the Subcommittee is performing. The seventh and eighth documents are summaries of the January 20, and February 22, 2000, meetings of the Subcommittee.

These materials were developed by the Subcommittee. By this memorandum, the Subcommittee is making these documents available to the public. The documents will also be placed on the Sewage Sludge Subcommittee's page of the ISCORS internet web page, at URL: <http://www.iscors.org/sewage.htm>.
