SECTION 3

SUMMARY OF THE JAFNPP EMERGENCY PLAN*

3.0 SUMMARY OF THE JAFNPP EMERGENCY PLAN

The JAFNPP Emergency Plan is a three volume set which is organized into Volume 1 - Emergency Plan and Volumes 2 & 3 - Implementing Procedures.

Volume 1 - Emergency Plan describes the preparedness program that has been established, implemented and coordinated by the Authority to assure the capability for responding to emergencies. Volumes 2 & 3 - Implementing Procedures contains the detailed step-by-step methods to be used for the specialized functions performed during implementation of the plan. Volume 3 also contains Emergency Plan maintenance procedures used by the Emergency Planning Department to maintain the plan and procedures. These three volumes are supported by the plans of the state, county, and private agencies involved in an emergency response.

The JAFNPP Emergency Plan describes the emergency response organization that will be in place during an emergency and describes the interfaces with and responsibilities of the corporate, state, county, federal, and private organizations.

County, State and Federal agencies having lead responsibilities specifically related to this Emergency Plan are:

- o New York State Department of Health (NYSDOH) - The lead State emergency response agency, responsible for requesting necessary monitoring and for activating assessment and evaluation personnel, equipment and other resources.
- o New York State Emergency Management Office (NYSEMO) - Responsible for developing, implementing, and maintaining comprehensive emergency plans and procedures for prompt reactions to potential emergencies at nuclear power plants in New York or in bordering states.
