Re: Turkey Point Units 3 and 4  
Docket Nos. 50-250 and 50-251  
Homestead AFB Property Disposal

We appreciate the efforts you have made to keep us informed of vital information in the development of a commercial airport next to the Turkey Point reactors. We remain extremely concerned.

1. You have already sent us copies of the letters the NRC has sent to Florida Power & Light dated April 14, 1998, August 5, 1998, and September 16, 1999. Would you send us copies of all communications sent to FP&L by the NRC, pertaining to the Homestead AFB property disposal, since the September 16, 1999 letter ?

2. You have sent us copies of the two letters and enclosures sent to the NRC from FP&L dated June 15, 1998 and November 17, 1999. Would you send us copies of all communications sent to the NRC by FP&L, pertaining to the Homestead AFB property disposal, since the November 17, 1999 letter, ?

3. You sent us a copy of the letter and enclosure from Douglas J. Heady, Dept. of the Air Force, dated August 23, 1999. Would you send us copies of all other communications sent by the Air Force to the NRC, pertaining to the Homestead AFB property disposal ?

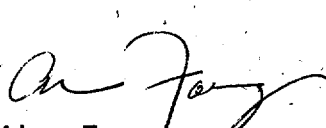

4. We have no record of communications sent by the NRC to the Air Force pertaining to the Homestead AFB property disposal. If such communications have been made, would you send us copies ?

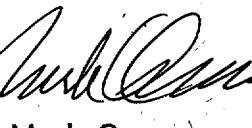

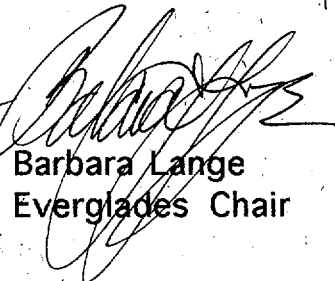

Adol

5. Would you send us a copy of the Safety Evaluation Report for Turkey Point Units 3 and 4, concerning the Homestead AFB property disposal ?

Sincerely,

  
Alan Farago  
Conservation Chair
