

DOCKET NUMBER
PROPOSED RULE **PR** 20
(64FR35090)

012345
05-100

March 14, 2000

'00 MAR 23 P3:29

To whom it may concern:

I wish to express my opinion in opposition to the NRC setting standards for the use of recycled radioactive waste!

There is a serious risk to the public health and even low levels of radiation are toxic and difficult to measure.

Common sense tells us that it is irresponsible to consider that any risk to our health is not acceptable.

Please take responsibility for the well being of mankind!

Sincerely,
Elizabeth Riley
