SUBJECT: REQUEST FOR INFORMATION ON HISTORICALLY SIGNIFICANT AREAS
NEAR THE SAXTON NUCLEAR EXPERIMENTAL CORPORATION FACILITY

Dear Dr. Glass:

In accordance with the consultation process of the National Environmental Protection Act, the U.S. Nuclear Regulatory Commission's (NRC's) staff is requesting information about historically significant areas located either on or near the Saxton Nuclear Experimental Corporation (SNEC) facility that could be impacted by activities performed at SNEC site. The licensee, SNEC, has submitted a License Termination Plan (LTP) to NRC. In support of our review of the LTP, we would like confirmation that the proposed actions at the SNEC site will not affect any properties in or eligible for inclusion in the *National Register of Historic Places*. Activities associated with the LTP are principally confined to the existing structures and the area inside the security fence.

The SNEC facility is located three fourths of a mile north of the Borough of Saxton in Liberty Township, Bedford County, Pennsylvania. The site is on the north side of Pennsylvania Route 913, 17 miles south of U.S. Route 22, and about 15 miles north of the Breezewood Interchange of the Pennsylvania Turnpike. The site consists of 1.15 fenced acres of the approximate 150 acres owned by Pennsylvania Electric Company.

Please provide your comments to me within 30 days from the date of this letter. If you have any questions, please contact me at (301) 415-6619. Thank you for your assistance.

Sincerely,

Sherry W. Lewis, Project Engineer
Decommissioning Branch
Division of Waste Management
Office of Nuclear Material Safety
and Safeguards

License No: DPR-4
Docket No: 50-146
