RE: Comments on Proposed Changes to Open Meeting Policy (65FR3982)

SERCH, Bechtel Power Corporation's licensing service, accesses the NRC Public Meeting page on a daily basis. While the information is useful, we have come up with a few suggestions on improving this web page.

1. Some meetings, especially the ACRS Subcommittee meetings are not being listed on the website. There needs to be more coordination between the ACRS Meetings web page and the NRC's Meeting listing.
2. Changes to posted meetings should be highlighted. This would include location and/or time.
3. When a meeting has been cancelled, indicate "CANCELLED" in the description and leave the meeting posted for approximately a week. (While this is done most of the time, occasionally a meeting is simply deleted off the list).
4. Some type of indication should be provided for the new meetings added to the listing since the last update. A suggestion would be to add "NEW" in bolded letters under the date.
5. If possible, include links to agenda using Press Releases and/or *Federal Register* notices.
6. One concern pertaining to discontinuing the use of the telephone recording for Commission meetings. Occasionally, Commission meetings are cancelled on VERY short notice. This cancellation is usually picked up by calling the telephone recording while the meeting web page has not been updated yet to indicate the change.

If there are any questions, please contact me at (301) 228-6025.

Sincerely,

Nancy Chapman
