Bill

I think we requested a 60 day implementation of this Amendment but if not we
would like a 60 day implementation

Subject: LPSI AOT Extension Implementation

I no I have mentioned this to you before, but I would like to go on record and
suggest that we request at least 60 days after NRC approval for implementation
of the revised LPSI AOT TS. There are several procedure changes that need to be
made and approved, and training is required for WC and Opns on the new process.
I am working on this now and my goal would be to beat the 60 days. I want to
make sure, however, that we have ample time since several groups are involved
(including some discussions with PTN).

Thanks,

Brien
