Box #17. Complete Description of Material. Including maximum quantities.

To export 25,000.0 kilograms uranium-235 contained in 500,000.00 kilograms uranium enriched to 5.0% w/o maximum

Box # 11. Intermediate End Use

For storage, conversion and fabrication at all above listed facilities. From time to time, some material may also be used by ENUSA at the ENUSA-JUZBADO factory for fabrication of fuel elements and enriched uranium for its pipeline as working inventory. Please also note that ENUSA is the supply agent in Spain for all Spanish utilities, and will manage the shipment of this material to the reactor.

Please do not hesitate to contact me if you require further information or clarifications.

Best regards.

Carmen Molerés
