Reference: PFS Letter, Donnell to U.S. NRC, EIS Commitment Resolution Letter #7,
February 25, 2000

In the above referenced letter Private Fuel Storage (PFS) provided the NRC with information on the loading costs for spent nuclear fuel at reactor sites for shipment of spent fuel to the Private Fuel Storage Facility (PFSF). The spreadsheets used to calculate the loading costs for case 1 and 3 were provided as attachments A and B of the above referenced letter.

As requested by Mr. Scott Flanders on March 23, 2000, PFS is providing the NRC with a disk that contains the spreadsheets used to calculate the loading costs for cases 1 and 3. If you have any questions regarding this response, please contact me at 303-741-7009.

Sincerely,

John L. Donnell
