MEMORANDUM TO: Joram Hopenfeld  
Engineering Research Applications Branch  
Division of Engineering Technology  
Office of Nuclear Regulatory Research

FROM: William D. Travers */RA/*  
Executive Director for Operations

SUBJECT: AD HOC REVIEW PANEL FOR "DIFFERING PROFESSIONAL  
OPINION ON STEAM GENERATOR TUBE INTEGRITY ISSUES"

This memorandum is in response to your March 29, 2000, memorandum, included as an attachment, regarding the membership of the ad hoc review panel formed to address your Differing Professional Opinion (DPO) on Steam Generator Tube Integrity Issues.

Since the concerns raised in your memorandum are currently the subject of a grievance being pursued through NTEU, I am suspending the ad hoc review panel pending the resolution of your grievance. I understand you do not object to this approach.

In your March 29, 2000, memorandum, you noted that you were unable to obtain previous documents using the ADAMS system. ADAMS became the official agency record keeping system on April 1, 2000. Consistent with agency policy that ADAMS would be a "this day forward" record keeping system, only a limited set of documents generated prior to April 1 will be systematically backfit into ADAMS. Consequently, external stakeholders will have access to the prior-April 1 documents related to your DPO through the Public Document Room (PDR).

You had also requested that your March 29, 2000, memorandum be placed in the PDR. We forwarded your memorandum to the PDR on April 13, 2000. Your memorandum, since it is attached to this response, will also be publicly available in ADAMS five working days from the date of this memorandum. Additionally, the March 21, 2000, memorandum that I wrote to you, including all of the attachments, can be found in ADAMS package accession number ML003693771. As part of this package, please note that multiple documents are contained within the ML003692976 accession number.

Attachment: As stated
