No. 98-98

FOR IMMEDIATE RELEASE  
(Wednesday, June 24, 1998)

NOTE TO EDITORS:

Two subcommittees of the Nuclear Regulatory Commission's Advisory Committee on Reactor Safeguards (ACRS) have scheduled meetings in July in Rockville, Maryland.

- The Subcommittee on Plant License Renewal will meet at 8:30 a.m. on July 16 in Room T-2B3, of the NRC's One White Flint North Building at 11545 Rockville Pike. The subcommittee will discuss the NRC staff's activities associated with license renewal.
- The Subcommittee on Reliability and Probabilistic Risk Assessment will meet July 17 beginning at 8:30 a.m. in Room T-2B3 of the NRC's One White Flint North Building. The subcommittee will discuss issues in a Staff Requirements Memo dated April 20, regarding situation-specific cases where probabilistic risk assessment results and insights have improved the existing regulatory system and specific cases in which this technique, when applied properly, can have a positive impact on the regulatory system.

Other aspects of the meetings, including an opportunity for public comment, will be described in a Notice of Meeting published in a forthcoming edition of the Federal Register.
