	9900 Tech Guidance OPERATIONS - NOED	12/12/00

TRAINING: No special training requirements have been identified for any documents issued with this change notice.

REMARKS: IP 71841 (Human Performance) is issued for inclusion in IMC 2515, Appendix B. This inspection procedure will address human performance issues identified under IP 95002, "Inspection for One Degraded Cornerstone or Any Three White Inputs in a Strategic Performance Area."

9900 TECHNICAL GUIDANCE (Operations - Notices of Enforcement Discretion) has been revised to reflect information received from outside stakeholders and on staff experience since the last revision. This revision also reflects the current organization. The major change was to allow a licensee 2-days to submit a written request for enforcement discretion for LCOs as opposed to the previous 1-day.
