## SUPPLEMENTAL FORM

| Section: 1.0 | Record/Document No.: U1 TRM | Page 1 of 1 |
|---|---|---|
| File No.: | Rev. Date: 5/6/03 | Transmittal No: LIC-03-014 |

**Description:**

Re-issue of ANO-1 TRM Page 1.0-2.

**Reason:**

Minor wording error noted on page that did not match the wording of the last two revisions which affected this paragraph on Page 1.0-2. This is a continuation of errors resulting from the installation of new computers and software at or about the time the ANO-1 TSs were being converted to the improved standard which resulted in dramatic changes to the TRM.

APPROVALS:

Originator: _[signature]_                     Date: 5/8/03

Section Supervisor: _Dennis Boyd_             Date: 5/8/03
_for Glenn Ashley_

AD-103, ATTACHMENT 9.3

### 1.0.4    Changes To The TRM

Design modifications, procedure changes, license amendments, etc. have the potential to affect the TRM.  If this occurs, the initiating department should complete a License Based Document Change form for submitting changes to the TRM.  TRM changes are subject to the requirements of 10 CFR 50.59 due to the TRM being considered a part of the SAR and therefore a licensing basis document.  Changes to the TRM will be issued on a replacement page basis to controlled document holders following approval of the change in accordance with site procedures on document control.

### 1.0.5    NRC Reporting Of TRM Revisions

Like the SAR, changes to the TRM are controlled under 10 CFR 50.59 and therefore do not require prior NRC approval unless the change involves a change to the TS or the need for a license amendment in accordance with 10 CFR 50.59 is required.  The most recent revision of the TRM will be sent to the NRC as part of the periodic SAR update process.

### 1.0.6    TS Applicability To The TRM

The TRM may reference a TS LCO or Surveillance Requirement (SR) that applies to the relocated information.  All TRM references to the TS will be preceded by "TS" or "Technical Specification" and then the associated specification number.
