Performance Indicator: Drill and Exercise Performance and Emergency Response Organization Participation

Site-Specific FAQ (Appendix D)? No

FAQ requested to become effective when approved

#### QUESTION SECTION

- 50

FAQ 58.4

Event of Circumstances requiring guidance interpretation:

If a licensee were to wait until the ERO assignment process was completed before crediting the DEP performance indicator for an ERO-member-in-training, then the opportunity could be counted in a reporting period other than the one in which the performance enhancing experience occurred. At North Anna, a performance enhancing experience was provided to new ERO member before they assumed their ERO position. The ERO member assumed their ERO position one day later; however, that day spanned reporting periods.

Question: How and when should DEP PI opportunities for ERO-members-in-training be counted?

#### RESPONSE SECTION

Proposed Resolution of FAQ:

PI opportunities and participation credit should not be counted for EROmembers-in-training. DEP opportunities are only counted for plant staff members who are currently **assigned to fill a key position** on the ERO.

### Background:

NEI 99-02, page 79, Line 31 states "The percentage of drill, exercise, and actual opportunities that were performed timely and accurately by **Key Positions**, as defined in the ERO Drill Participation indicator,....

NEI 99-02, page 86, Line 11 states, "...ERO members assigned to fill Key Positions.

## Discussion:

The participation PI tracks Key ERO members **assigned** to the ERO. The key word here is **assigned**. Trainees are not assigned to the ERO and therefore DEP opportunities or participation does not count.

Data reporting may be affected in accordance with this FAQ at some plants. There is no need to modify past record keeping practices based on this FAQ. Record keeping practices should only be modified for practices conducted after this FAQ is approved.

If appropriate, provide proposed rewording of guidance for inclusion in next revision:
