Mr. David Boudreaux
Radiation Safety Officer
Oceaneering International, Inc.
Inspection Division
Station #1, Box 10267
227 Clendenning Road
Houma, Louisiana 70363

SUBJECT: NRC INSPECTION REPORT 150-00017/06-001 (FORM 591M)

Dear Mr Boudreaux:

This letter refers to the safety inspection conducted on May 12, 2006 at a temporary job site (Ewing Bank 913 on the diving vessel "Uncle John") in offshore waters in the Gulf of Mexico. This inspection was an examination of activities conducted under the General License provisions contained in 10 CFR 150.20 as they relate to safety and compliance with the Commission's rules and regulations and with conditions of the license. At the conclusion of the onsite inspection, a preliminary exit briefing was conducted with your radiographer. A final exit briefing was conducted with you on May 24, 2006. Additionally, during this final exit briefing, the inspector discussed the additional security measures (Increased Controls) required of licensees possessing and using radioactive material quantities of concern during licensed activities on temporary jobsites in offshore Federal waters.

Within the scope of this inspection no violations or deviations were identified; therefore, no response to this letter or the enclosed NRC Form 591M is required.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/Adams.html>.

Oceaneering International, Inc.
