RE: Survey of Facility for License #21-32298-01, Regional Cardiology, 2486 Nerredia, Ste E, Flint, MI 48532

The decommission survey of the Regional Cardiology, 2486 Nerredia, Ste E, Flint, MI 48532-4807 location under license #21-32298-01 was performed on March 19, 2007.

The results of the survey are: All surveys and wipes tests prove to be below background measurements. The following methodology was performed:

1. A comprehensive survey of the entire Nuclear Hot Lab, and all stress lab room and imaging Gamma Camera areas, were performed using a GM end window survey meters. Surveys were performed at the most sensitive setting. All survey results proved to be below background measurements. (Survey locations are indicated on attached map). The following meter was used:
 - a. Ludlum GM Model 14C – Recently Calibrated (8/3/06)
2. Wipe tests were performed on twenty-two (22) locations (indicated on attached map). Wipe tests were counted in a Capintec CRC-15W well, for 1 minute.

Window 0-600keV

Hot Lab

1. Countertop at Dose Drawing Area
2. Background – outside of lab in hallway
3. Dose Drawing area floor
4. Hot Lab Waste Storage undercabinet area
5. Entrance to Hot Lab at door
6. Countertop at door end
7. Closet in Hot Lab
8. Stress Lab (downstairs) Entrance
9. Patient table (1) in Stress Lab
10. Patient table (2) in Stress Lab
11. Patient floor area (1) in Stress Lab
12. Patient floor area (2) in Stress Lab
13. Imaging room Gamma table (1) Downstairs

14. Imaging room floor (1) downstairs
15. Imaging room Gamma table (2) downstairs
16. Imaging room floor (2) downstairs
17. Stress treadmill area upstairs
18. Stress area floor upstairs
19. Imaging room upstairs camera area
20. Imaging room upstairs on floor near camera area
21. Control panel of upstairs imaging room equipment
22. Control panel of downstairs imaging room equipment

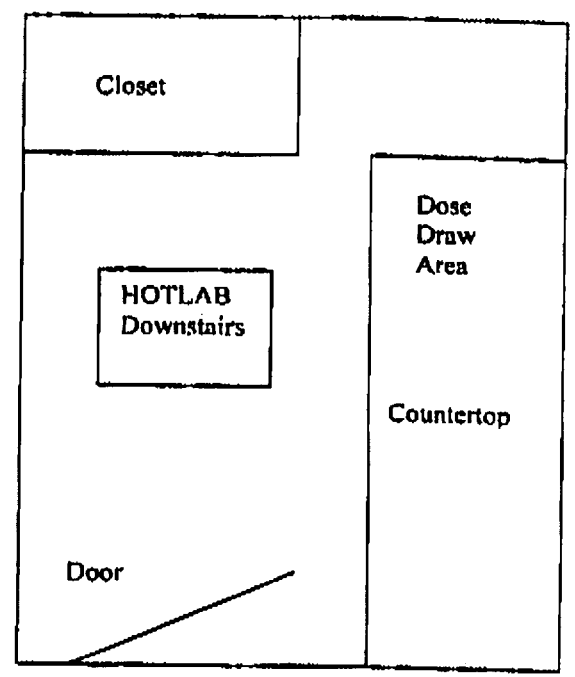

All wipes were below 2000 dpm. All wipe areas were also surveyed with the GM survey meter and all areas recorded less than 0.03 mR/hr.

All Sealed sources were leak tested. All leak testing was background prior to and after transport.

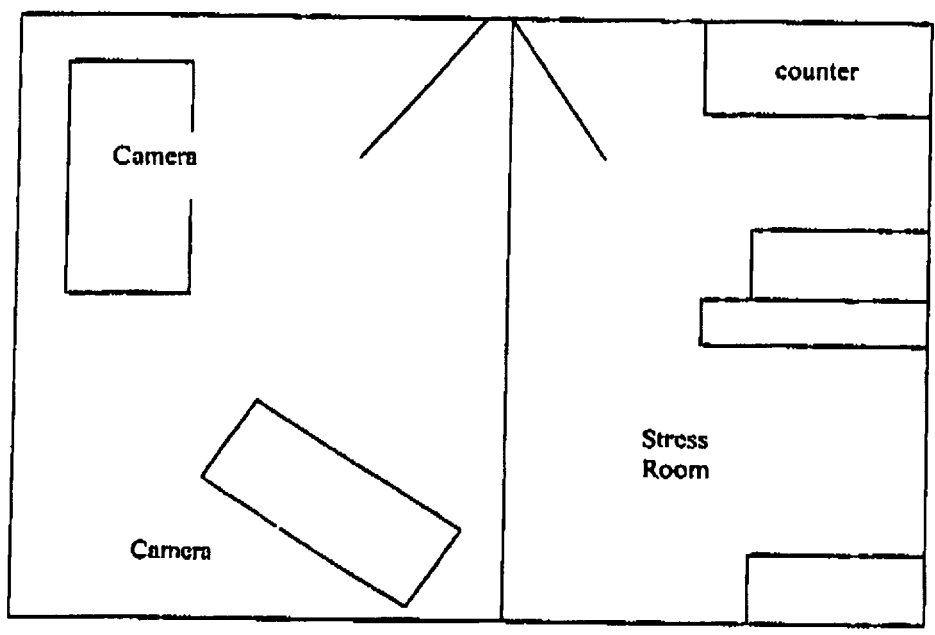

If there are any further questions please contact survey nuclear medical physicist Laura T. Smith, MS at (586) 215-5947 or pager 313 609-2038.
