DC-03-2007 INIT EXAM

Draft Outline Comments

<u>Written Exam Outline</u>

1. Were any systems/evolutions deleted? Answer – yes, the ice condenser.

2. Any operationally important site specific systems added? Answer – No.

3. How were KA's added to Tier 2? Answer – see outline file for description.

4. On form ES-401-4, last statement should be T2G2, not T2G1.

5. Discussed recognized problem with outline software program.

6. Suppressed KA's: print outs just first KA statement?

<u>Op Test Outline</u>

1. For NRCADM051-301A, STP-I-1A should be 1D (for RO applicants).

2. For Control Room Systems NRCCLJC051-063 – missing a "P" type code since this JPM was on the 2002 NRC exam.

3. For CR Systems NRCCLJC051-049 – the "A" type code is not applicable since it is not an alternate path.

4. For Inplant NRCLCP051-038, missing a "P" type code since this JPM was on the 2002 NRC exam. This makes four "P's" – not acceptable for RO applicants.

5. Form ES-301-5 not filled out correctly.

6. On ES-D-1 for the scenarios – need to indicate when the events will occur.
