*ON GLENDA'S 8/30/01 LIST
of Exemptions Granted*

Dear Mr. Roberts:

I am in receipt of your letter of February 9, 1998, to Francis Costello, Region I, in which you are requesting an amendment to License 37-23341-01 and for which you are seeking an exemption from the 10 CFR 170 amendment fees. As explained below, a one-time exemption is granted.

The bases for your request are: (1) the requested work is in voluntary cooperation with NRC at a former nuclear laundry facility in Jeannette, PA to allow Interstate Nuclear Services to receive and temporarily store waste; (2) the arrangement will provide the greatest level of public protection; (3) the amendment facilitates access arrangements with the current property owner; and (4) the amendment promotes the interests of the Commission with regard to the timely closure of the project.

Region I has confirmed the bases for your exemption request and has stated that this one-time activity will facilitate decontamination of the nuclear laundry facility that is now in the possession of a non-licensee. Therefore, pursuant to 10 CFR Part 170.11(b)(1), I am granting a one-time exemption from fees for your February 9, 1998, request to amend your license to specifically authorize you to temporarily receive and store radioactive waste from the Jeannette, PA facility. I have determined that such an exemption is authorized by law and is otherwise in the public interest.

Sincerely,
Letter signed by
