

August 30, 2007

Clyde Bolton, Director  
Division of Public Health Protection & Safety  
Department of Public Health  
275 East Main Street  
Mail Stop HS 2E-D  
Frankfort, KY 40621-0001

Dear Mr. Bolton:

A periodic meeting with Kentucky was held on July 31, 2007. The purpose of this meeting was to review and discuss the status of Kentucky's Agreement State program. NRC was represented by James Kottan, via telephone, and me. Specific topics discussed at the meeting included all performance indicators and the program's progress on the seven recommendations made during the 2004 Integrated Materials Performance Evaluation Program (IMPEP) review.

I have completed and enclosed a general meeting summary. It was noted during the meeting that the program's overall performance has continued to improve since the 2005 and 2006 periodic meetings especially in the area of staffing for the program. Additional improvement is still needed in the performance indicators of "SS&D Evaluation Program" and "Compatibility Requirements." These indicators were found "Satisfactory, but Needs Improvement" during the 2004 IMPEP review. Work on addressing the recommendations made during the 2004 IMPEP review is in progress. All but one of the recommendations remain open.

This meeting will be discussed at the next quarterly Special Management Review Board meeting.

If you feel that my conclusions do not accurately summarize the meeting discussion, or have any additional remarks about the meeting in general, please contact me at 301-415-2320 or via email at [kxs@nrc.gov](mailto:kxs@nrc.gov) to discuss your concerns.

Sincerely,
