**Subject:** Fwd: Subsurface Investigation Activities

Mohammed,

I received the attached information from Ken Ainger. I talked with the branch chief and the reviewer. They would like to inspect the activities. I have talked with Region II and they will support. So, I will have to coordinate our visit with Ken. I am letting you know that there may be some travel resources needed for this before end of September. This is just heads up notice. I will let you know more details ASAP.  
Thanks.

Chandu
