SUBJECT: NOTICE OF AVAILABILITY OF THE DRAFT ENVIRONMENTAL IMPACT
STATEMENT FOR AN EARLY SITE PERMIT (ESP) AT THE VOGTLE ESP
SITE (TAC NO. MD3010)

Dear Mr. Miller:

The U.S. Nuclear Regulatory Commission (NRC) staff has completed NUREG -1872, "Draft Environmental Impact Statement (DEIS) for an Early Site Permit (ESP) at the Vogtle ESP Site." Enclosed is a copy of the draft report and the associated *Federal Register* Notice of Availability. This notice advises the public that the draft report is available for public inspection at the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Website at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room) and directly from the NRC Website at www.nrc.gov. In addition, the Burke County Library, 130 Highway 24 South, Waynesboro, Georgia, has agreed to make the DEIS available for public inspection. The notice also informs the public that the public meeting on the DEIS will be held at the Augusta Technical College, Waynesboro Campus Auditorium, 216 Hwy 24 South, Waynesboro, Georgia, on Thursday, October 4, 2007. The meeting will convene at 7:00 p.m. and will continue until 10:00 p.m., as necessary. The meeting will be transcribed and will include: (1) a presentation of the contents of the DEIS, and (2) the opportunity for interested government agencies, organizations, and individuals to provide comments on the draft report. Additionally, the NRC staff will host informal discussions two hours before the start of the meeting at the Auditorium in the Augusta Technical College.

As discussed in Section 11.7 of the DEIS, the staff's preliminary recommendation is that the ESP should be issued. This preliminary recommendation is based on (1) the Environmental Report (ER) submitted by Southern Nuclear Operating Company, as revised; (2) consultation with Federal, State, Tribal and local agencies; (3) the staff's independent review; (4) the staff's consideration of comments received during the public scoping process; and (5) the assessments summarized in the DEIS, including the potential mitigation measures identified in the ER and in the DEIS. In addition, in making its preliminary recommendation, the staff has concluded that there are no environmentally preferable or obviously superior sites. Finally, the staff has preliminarily concluded that the site preparation and preliminary construction activities allowed by 10 CFR 50.10(e)(1) will not result in any significant adverse environmental impact that cannot be redressed.
