1. Docket No. 50-285
  2. Letter from OPPD (D. J. Bannister) to NRC (Document Control Desk), "Fort Calhoun Station Unit No. 1 License Amendment Request (LAR), Modification of the Containment Spray System Actuation Logic," dated July 30, 2007 (LIC-07-0052)

**SUBJECT: Fort Calhoun Station Unit No. 1, Response to Request for Additional Information for License Amendment Request (LAR), "Modification of the Containment Spray System Actuation Logic"**

In Reference 2, the Omaha Public Power District (OPPD) requested changes to the Fort Calhoun Station (FCS) Unit No.1 Operating License No. DPR-40 to modify the containment spray (CS) system actuation logic to preclude automatic start of the containment spray pumps for a loss-of-coolant accident (LOCA). This LAR included a "Summary of FCS Containment Analysis without Containment Spray" produced by AREVA NP, Inc. (AREVA).

During a telephone conference on August 22, 2007, OPPD and AREVA were requested by the NRC (R. Lubel and A. Wang) to provide certain GOTHIC computer code input files used by AREVA for the containment analysis in order for the NRC to perform confirmatory runs. The requested files and instructions for use are included on the enclosed compact disc. These files are considered proprietary to AREVA NP, Inc., as justified in the supporting affidavit (attached).

This letter contains no regulatory commitments.

If you should have any questions regarding this submittal or require additional information, please contact Mr. Thomas C. Matthews at (402) 533-6938.

Sincerely,

  
David J. Bannister  
Acting Site Director

**ATTACHMENT**

**Affidavit for AREVA NP, Inc.,  
Proprietary Information**

requested qualifies under 10 CFR 2.390(a)(4) "Trade secrets and commercial or financial information."

6. The following criteria are customarily applied by AREVA NP to determine whether information should be classified as proprietary:

- (a) The information reveals details of AREVA NP's research and development plans and programs or their results.
- (b) Use of the information by a competitor would permit the competitor to significantly reduce its expenditures, in time or resources, to design, produce, or market a similar product or service.
- (c) The information includes test data or analytical techniques concerning a process, methodology, or component, the application of which results in a competitive advantage for AREVA NP.
- (d) The information reveals certain distinguishing aspects of a process, methodology, or component, the exclusive use of which provides a competitive advantage for AREVA NP in product optimization or marketability.
- (e) The information is vital to a competitive advantage held by AREVA NP, would be helpful to competitors to AREVA NP, and would likely cause substantial harm to the competitive position of AREVA NP.

The information in the Document is considered proprietary for the reasons set forth in paragraphs 6(b) and 6(c) above.

7. In accordance with AREVA NP's policies governing the protection and control of information, proprietary information contained in this Document have been made available, on a limited basis, to others outside AREVA NP only as required and under suitable agreement providing for nondisclosure and limited use of the information.

8. AREVA NP policy requires that proprietary information be kept in a secured file or area and distributed on a need-to-know basis.

9. The foregoing statements are true and correct to the best of my knowledge, information, and belief.
