U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

**SUBJECT: IW024 Residual Wastes**

---

Dear Mr. MacMurdy:

As per our conversation yesterday regarding the import license IW024 of waste from D.C. Cook Nuclear Power Plant being imported to Areva in Lynchburg, VA and transferred to EnergySolutions/Duratek facility in Oak Ridge, TN for processing and disposal. Residues from processing this waste will be attributable to EnergySolutions and disposed of at the Clive UT burial facility.

Sincerely

A handwritten signature in cursive script, appearing to read "Donnie Brackett".

Donnie Brackett  
Customer Service Manager  
EnergySolutions
