OFFICE OF SECRETARY  
RULEMAKINGS AND  
ADJUDICATIONS STAFF

Energy Solutions Import  
License Application 1W023.

I am against other  
countries dumping their  
waste in the United States.

Let them dump in their  
own country. They wouldn't  
take our waste.

Why would you even want  
to use the United States  
like this?

It would be wrong for  
our children and generations  
to come.
