To Whom It May Concern,

First let me say, I can't believe I even have to write such a letter to the government. As a country we can't even begin to deal with our own waste issues and to think we would even consider taking lethal nuclear waste from a foreign country. A country I might add, that would laugh in our face if we asked them to take in some of the hundreds of tons of nuclear waste we produce annually.

As a resident of Tennessee I don't want waste of any kind brought in from any country and as a citizen of the United States, I think we need to start taking care of our own needs before we try to help other countries deal with their issues.

Regards
