Re: Re-licensing of Three Mile Island Unit 1

Date: May 13, 2008

Enclosed is a copy of a petition to our elected government officials for redress of grievances that states:

"We, the undersigned citizens of Pennsylvania, ask your leadership and that of the Pennsylvania congressional delegation to uphold at the federal level our rights and responsibility for children and a safe environment."

"We seek legislation establishing a law denying a nuclear license to a utility site where uncontrolled emissions of radiation have posed a risk to the environment, workers and the public."

"We also seek a high-level nuclear waste disposal site that is established and operating before new nuclear plants are given a license to operate."

We request the petition for Children and a Safe Environment, with the fifteen pages of names, be made part of the permanent record of the Three Mile Island Unit 1 Re-licensing process.

Dear Governor Edward Rendell,

We the undersigned residents of Pennsylvania ask your leadership and that of the Pennsylvania Congressional delegation to uphold at the Federal level our rights and responsibility for children and a safe environment. We seek legislation establishing a law denying a nuclear license to a utility site where uncontrolled emissions of radiation have posed a risk to the environment, workers, and the public, and that a high level nuclear waste disposal site is established and operating before new nuclear plants are given a license to operate. Thank you.

Dear Governor Edward Rendell,

We the undersigned residents of Pennsylvania ask your leadership and that of the Pennsylvania Congressional delegation to uphold at the Federal level our rights and responsibility for children and a safe environment. We seek legislation establishing a law denying a nuclear license to a utility site where uncontrolled emissions of radiation have posed a risk to the environment, workers, and the public; and that a high level nuclear waste disposal site is established and operating before new nuclear plants are given a license to operate. Thank you.

Gov. Governor Edward Rendell,

We the undersigned residents of Pennsylvania ask your leadership and that of the Pennsylvania Congressional delegation to uphold at the Federal level our rights and responsibility for children and a safe environment. We seek legislation establishing a law denying a nuclear license to a utility site where uncontrolled emissions of radiation have posed a risk to the environment, workers, and the public; and that a high level nuclear waste disposal site is established and operating before new nuclear plants are given a license to operate. Thank you.
