Subject: Clarificatory Questions Request Regarding Vallecitos Nuclear Center
Site Security Plan (TAC L32658)

Reference: NRC License SNM-960, Docket 70-754
Letter from M.T.Adams to D.W.Turner.

Attached please find responses to each of the questions posed in the letter. It is my hope that the responses will provide sufficient additional detail to enable the NRC to approve our security plan for our SNM licensed activities. We have moved forward with implementation of several aspects of the plan, but others are necessarily awaiting the NRC's approval of the direction we have proposed.

Please contact me at (925) 862-4344 if you have any questions or would like to discuss this matter further.
