To:
Materials Licensing Branch
U.S. Nuclear Regulatory Commission
Region III,
2443 Warrenville Road, Suite 210
Lisle, IL 60532-4352

Reference: Byproduct Material license No. 13-32556-01

To comply with the revised regulations, please accept this letter as our application to amend the above referenced Byproduct Material License to add the NARM material used at our facility (I-123, Ga-67, etc.) for diagnostic purposes. We also have a Co-57 sealed flood source for the quality control on the scintillation camera.

I hope this information is satisfactory.

Sincerely,

J. Konijeti, M.D.
Radiation Safety Officer.
