Subject: Submittal of NEI 06-11, "Managing Fatigue at Power Reactor Sites," Draft D

Project Number: 689

During the development of the final rule on revisions to 10 CFR 26 concerning Fitness-For-Duty including fatigue management, the Nuclear Energy Institute and the Work Hours Task Force have been working with the NRC staff on implementation guidance. The industry was pleased to receive several constructive comments on Draft C of the industry implementation guide. The comments have been appropriately addressed by revisions to the implementation guide.

This letter provides NEI 06-11, "Managing Fatigue at Power Reactor Sites," Draft D for NRC review and endorsement through the regulatory guide process. The document provides implementation guidance for power reactor sites based upon our understanding of the final rule.

If you have any questions, please contact me at (202) 739-8138; jwr@nei.org.
