RE: Fletcher Allen Health Care *03003289*
License # 44-10187-03

Please amend our radioactive materials license to remove Item 6-9 H, Y-90 for calibration. This was only needed prior to use of Y-90 Zevalin. The now authorized use of patient dosages or activity up to 15 mCi for calibration will prove sufficient for our use.

Please also remove this application "Y-90 for instrument calibration" from authorizations for Drs. Fairbank, Kikut, and Sturtevant.

Thank you for your attention to this. If you have questions please contact Marleen M. Moore, M.S., Radiation Safety Officer, at (802) 847-3506. All correspondence should be copied to Marleen Moore, M.S., Shepardson 2

Sincerely,

Angeline Marano
