**Subject:** CALVERT CLIFFS 3RD REACTOR EIS

I wish to express my support for the proposed 3rd reactor at Calvert Cliffs Nuclear Power Plant. I live close by (Solomons, MD) and am well aware of the extremely remote danger posed by the existing reactors; a third would add little to this risk.

Nuclear power is not a perfect solution to the nations energy needs. However, continued reliance on imported energy (Middle East Terrorism) and the domestic fossil fuel (coal burning power plant emissions) make nuclear energy a lesser evil.

I manage environmental programs for the U.S. Navy, am a community member of the Cove Point Natural Heritage Trust (a local environmental organization) and am conversant with National Environmental Policy Act requirements. In my opinion, opposition to this project has not gone beyond not-in-my-backyard parochialism and scaremongering.

If you wish to hear my views and rationale further, please do not hesitate to contact me.

Sincerely,

**Mike Rudy**
