I am not in favor of The United States in becoming the nuclear dumping ground. Do not allow our country to become the depositor of nuclear waste from other countries. Yes, it needs to be controlled, but let the country that generated the waste control there own waste. Depending the shelve life of this waste; it could take hundreds of years before it does not present a problem. Please ban the importation of foreign nuclear waste.

Please take these comments into consideration when making your decision.
