Re: *Energy Solutions*' import license application

To Whom It May Concern:

I would like to express my support for *EnergySolutions*' import application. With more than 25 years of experience in environmental restorations and disposition, *EnergySolutions* is the industry leader in waste disposal.

Operating with an exceptional record for safety, *EnergySolutions* not only operates with a distinct concern for public safety, but also a sensitivity to environmental safety. The company continues to meet every applicable Commission, Department of Transportation and state requirement for the safe handling and transportation of nuclear materials.

I strongly urge the Commission to approve the license application. *EnergySolutions* has proven that it is a responsible company that performs at the highest level in the industry.

Thank you for your consideration.

Sincerely,

Colleen S. Johnson, Chairman
