RE: Notification of Import/Export Activities under General License.

Dear Ms. Wright;

UniTech Services Group, INC. has gained another client that requires laundry service in Canada. The New Brunswick Power Point Lepreau Generating Station and its subcontractor, AECL (Atomic Energy of Canada Limited) will be shipping used clothing to UniTech Services Group, INC. in the United States. The laundry will be processed, monitored and returned to the customer for reuse.

Typical activities are $1e-8$ mCi/g to $2e-7$ mCi/g for the laundry. We have conservatively estimated the highest activity based on the fullest possible truck, at the highest specific activity expected to be seen over the course of the project.

Additional information for Eberline is provided as they were the manufacturer of new sealed check sources for radiation detectors.

UniTech understands that no formal NRC response or approval is required for the actual submission. Please feel free to contact me at your earliest convenience if you have any questions or concerns.

Sincerely,

Mark Tunnell
