Dear Mr. Pardee:

On May 14, 2008, the U. S. Nuclear Regulatory Commission (NRC) completed a temporary instruction inspection at your Oyster Creek Nuclear Generating Station. The inspection covered the transition from a contract to a proprietary security force. The enclosed inspection report documents the inspection results, which were discussed on May 14, 2008, with Mr. James Randich, Plant Manager, and other members of your staff.

The inspection examined activities conducted under your license as they relate to security and compliance with the Commission's rules and regulations and with the conditions of your license. The inspector reviewed selected procedures and records, observed activities, and interviewed personnel.

Based on the results of this inspection, no findings of significance were identified.
