Mr. Vance,

The document you reference was issued by the NRC licensing staff but not as part of the Bellefonte adjudication. Licensing activity distribution and adjudicatory service lists are two different lists. Unless you see a document with an attached certificate of service you can be assured it was not filed on the adjudicatory docket for Bellefonte. To accommodate your concerns I am copying this e-mail to the appropriate licensing personnel and request that Mr. Vigluicci and you be placed on the licensing distribution lists for the Bellefonte COL matter. Please contact them directly for the placement of anyone else from TVA on the mailing list. Feel free to contact us Office of the Secretary) on strictly adjudicatory matters. In addition, their names and titles are on the following NRC website: <http://www.nrc.gov/reactors/new-licensing/col/bellefonte.html#contacts>

Rulemaking and Adjudications Staff,

As you recall, I recently requested that my email address be corrected on the service list for all correspondence related to the Bellefonte COL proceeding. I appreciate your prompt response to my request.

On March 19, another document was issued in this proceeding (letter to Mr. Ashok S. Bhatnagar, Subject: Bellefonte Combined License Application - Nuclear Regulatory Commission Inspection of the Implementation of the Quality Assurance Program Governing the Simulated Open Channel Hydraulics Model - Inspection Report Numbers 05200014/2008-001 and 05200015/2008-001 and Notice of Violation, Accession No.: ML080640487). Once again, neither Edward Vigluicci nor I were included on the distribution list.

Mr. Vigluicci and I have both submitted Notices of Appearance in this proceeding. We should be included in the mailing list for all documents related to the Bellefonte COL application. If there are additional notices that we need to file or steps we need to take to be included in all distribution lists related to this proceeding, please indicate those so that we can take the appropriate action.

Thank you.
