Col. Melanson,

I left a voicemail with Mr. Burton regarding the amendment request. Following that voicemail, I was able to get in touch with Eckert and Ziegler to confirm that the HEGL-0133 source is registered as A3432. The following additional information will complete your application:

- 1) Latest sealed source inventory record that included the strontium-90 sources and details on the Manufacturers' source model numbers that correspond to the Health Physics Identifiers.
- 2) Last page of Environmental Management and Controls' license.

You may fax the information to my attention at 610-337-5269. Please reference Mail Control No. 142371 in your response. Sincerely,

Penny Lanzisera
