

## **SAFEGUARDS INFORMATION**

June 4, 2008

Mr. Ross T. Ridenoure  
Site Vice President  
Southern California Edison Company  
San Onofre Nuclear Generating Station  
5000 Pacific Coast Highway  
Building D3D  
San Clemente, CA 92672

SUBJECT: SAN ONOFRE NUCLEAR GENERATING STATION - SECURITY INSPECTION  
05000361/2008201 AND 05000362/2008201

Dear Mr. Ridenoure:

On April 17, 2008, the U.S. Nuclear Regulatory Commission (NRC) completed a security baseline inspection at the San Onofre Nuclear Generating Station. The inspection covered one or more of the key attributes of the security cornerstone of the NRC's Reactor Oversight Process. The enclosed inspection report documents the inspection results, which were discussed on April 17, 2008, with Mr. James T. Reilly, Site Vice President of Engineering, and other members of your staff.

The inspection examined activities conducted under your license as they relate to security and compliance with the Commission's rules and regulations and with the conditions of your license. The inspectors reviewed selected procedures and records, observed activities, and interviewed personnel. No findings of significance were identified.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system, ADAMS. ADAMS is accessible from the NRC Website at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room). However, because of the security-related concerns contained in the enclosure, and in accordance with 10 CFR 2.390, a copy of this letter's enclosure will not be available for public inspection.

Enclosure contains **Safeguards Information**. Upon removal, this letter is decontrolled.
